ABOUT ME

I am Smriti Neupane, a dedicated and passionate Frontend Developer and Designer with a keen ability to bring innovative ideas to life. My proficiency lies in implementing creative solutions that not only enhance user experiences but also contribute to the success of the organizations I work with. As a resourceful professional, I strive to add a touch of creativity to every project, aiming for excellence in both design and functionality. With a commitment to achieving corporate success, I am eager to bring my skills and creativity to a dynamic and growth-oriented firm, serving as a valuable representative of its brand.

WORK EXPERIENCE

- **FREELANCING**

I actively engaged in freelancing projects, showcasing my commitment to continuous learning and hands-on application of the latest technologies. You can explore my diverse portfolio and coding projects on my GitHub profile, where I contribute to open-source initiatives and collaborate on various frontend development and design projects.
